PROFESSIONAL SUMMARY

Fullstack Developer focused on backend development using Spring Boot and Java. Experienced in building web applications with Angular, REST APIs, JWT authentication, and role-based access control.

Hands-on experience developing fullstack applications, integrating SQL and NoSQL databases, and deploying on AWS. Seeking a Junior Backend or Fullstack Developer role.

TECHNICAL SKILLS

Angular, TypeScript, Spring Boot, Node.js, REST APIs, JWT, MySQL, PostgreSQL, MongoDB, AWS, Git, Linux, WebSockets

EXPERIENCE

Fullstack Developer | Personal Projects

2024 – Present

- Designed and developed fullstack web applications using Angular and Spring Boot
 - Implemented secure authentication using JWT and role-based access control (RBAC)
 - Built and consumed RESTful APIs following best practices
 - Designed database schemas and integrated MySQL and MongoDB
 - Developed real-time communication systems using WebSockets (STOMP)
 - Deployed applications to AWS (CloudFront)
-

Multimedia Technical Lead | Seventh-day Adventist Church – Santa Fe

2020 – Present

- Managed and executed live streaming productions using OBS
 - Configured streaming workflows for YouTube broadcasts
 - Led technical setup and troubleshooting of audiovisual systems
-

PROJECTS

Users Management Platform | Fullstack Application

- Built a complete user management system with authentication and role-based access
- Developed frontend using Angular and state management
- Implemented backend with Spring Boot and Node.js
- Designed relational database using MySQL
- Deployed application on AWS (CloudFront)
